

The Instructional Leader with a Systems-Growth Mindset

Leadership matters! Evidence shows that school leadership is second only to teaching to effect student learning (Darling-Hammond & Rotham, 2010) and that improving outcomes requires effective instruction. Through this series of modules, educators will work collaboratively with team members to reflect on and design systemic strategies aimed at increasing learning for all students.

September 18, 2017: Module 1 – System Analysis: An Overview (Session #45174)

October 2, 2017: Module 2 – Relationships, Culture, and Climate: The Role of Leadership (Session #45182)

November 28, 2017: Module 3 – Use the Data: Shifting the Conversation to Instruction (Session #45183)
